Head of School's Message

As you look through this book for the first time, and then revisit it periodically over the many years to come, I hope it evokes powerful memories and feelings of the caring, support, and connection that thrives at BCS. The 2016-17 school year will be remembered by all who were here as one of tremendous engagement, achievement, and most lastingly of interpersonal connection that is so apparent on these pages. There are the many structured ways we come together in class, on teams, through cadets, and in the house system. There are also the many, beautiful moments you'll remember that were of your own making and which deepened the relationships with your classmates, your teachers and mentors, and your school.

As our Mission Statement starts, we create a caring community and from quiet moments in chapel, to hollering from the top of Mount Orford, we built a community at BCS that deserves to be commemorated. So, whether you are reliving fresh memories or pulling this out after years to remember the name of an old classmate or teacher, I encourage you to take a little extra time. Soak in the feeling that being at BCS gave you, and let that move you to engage and appreciate, and to take the very best of your experience and bring that to other parts of your life.

Editor's Message

To the BCS Community,

The yearbook truly is a year long process. From taking and collecting pictures to planning and designing pages to the final edits before submission.

This annual project is made possible by a handful of people and they all deserved to be thanked!
First, my Yearbook Committee who dedicated time out of their busy schedules to help produce this book. I'm proud to have worked along side these 18 students.
Second, the Faculty and Staff members who assisted this project through picture taking, layout planning and through their thought and opinions on various pieces of the book.
Third, the Friesens team and our representative Caroline for always being available to answer questions or help out at a moments notice.
Finally, my Senior Editor Quinn. She has been an exceptional editor in helping with the layout of the book as well as keeping the committee informed and on task. I wish her the best of luck for her future endeavours.

Thank you to all of you!!!
Tyler Gordon

Grier South is a house where many young men from many countries and cultures live. Grier South is the place where the youngest students grow, where they sleep and study. It's also the place where they start new friendships and the place where they get their first roommate. It might be the house with the smallest rooms on campus, but it's the house with the most awesome peole. We might have to deal with really different people, but that's what makes South special.

This year Williams house had fifteen guys instead of fourteen. For the smallest house, it was a big modification. We all thought that this would change our lives in the house dramatically. But it did not. We are still special little flowers and the same as before. But Daniel is the most special because everybody loves his country music during prep. And his roommate, Cristo, is too big to fit between the doors and always spends his wonderful time in the Enrichment Centre. Next to them is another couple, Eppe and Emre. While Emre yells weird sounds during prep, Eppe stays focused watching TV shows on Netflix. Ludovic, down the hall, runs to Javier's room to tell him the news about the results of the Pepsi experiment. Javier silently listens to Ludovic and puts on Spanish music instead of starting a conversation. But Joshua really needs to do the calculus he doesn't understand. So, he struggles for a minute and then goes to sleep. In the same floor, Amir disturbs Emre, so they both cannot do homework. Beneath them, the Chinese roommates, Huakun and William are trying to kill mosquitoes using hair spray as an effective killing tool. In the room beside them, Nicolas is playing Call of Duty on a big screen, while Eason is playing League of Legends on a small screen. Bobby is trying to cook alive lobster that Nikita ran 5 miles to get and at the end of the hallway, Theo is trying to catch a new Pokémon, while Blake is facetiming his girlfriend.
This one big mess is held under the command of Mr. D. with his assistant, Mr. Zathmary. Together they lead the house into prosperity, while Junior D. leads his Minecraft character into prosperity too. Together we are Williams house.

James: Smith's Pizza thief. Always on the phone.
Matt I: Local BU student-guy, if not found in the office please check the kitchen.
Joe: Survived at least 5 tours of duty in Grier South, so the Smith Task Force had to get him out of there. Now he's second in command here and everything is smooth sailing.
Mr. Obermeir: To be remembered for heated Magic the Gathering matches against Armin, Diego and whoever happened to know how to play.
Mr. Jackon: Building tanks, playing sax.
Mr. Crowther: Casually wandered back into Smith to serve as a TOD after a couple of years. He still has it.
Mr. Daigle: If you walk into the house and a dog the size of a bear runs you over that means Mr. Daigle in on duty.
Mr. Wilt: Our Houseparent. Some say that the coolness of a Houseparent is directly proportional to the distance between their residence and the Student Center. Guess what that makes him?

The die is cast, and the sword will always be conquered by the spirit. Never give up, never give in, as never was anything great achieved without danger: be a fox to see the traps and a lion to fend off wolves, and never forget, a life unexamined is not worth living. Bow ties are cool, and make it so!

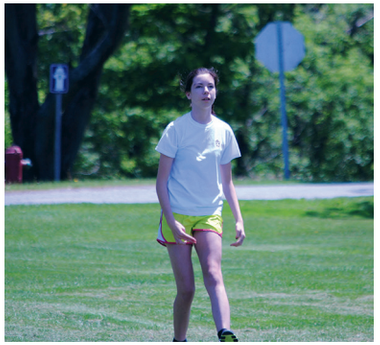
Prefects

Julia

My first year at BCS was in Form 2,
and like everyone else, I was scared and new.
Back then, half days were every Wednesday weren't a myth
and the winner of carnival was actually Smith
Six years ago, Kieran was a prefect
and I wanted to be one of those few select.

Form 3 rolled around and I joined Round Square,
and I went on a conference to Ontario where
I discovered passion for involvement in school
and joined all the extracurriculars I thought looked cool.
There was choir and Inscape and yearbook and band,
and suddenly I was busier than I ever had planned

Form 4 was the year I really branched out
and went on exchange to Australia without any doubt.
I made friends there too, with the koalas and kangaroos
and came back home to Canada, having missed the winter blues.
This was also the year I got gated,
Surprisingly enough, a sense f self it created.



By the time I was in Form 5,
I had found a home in which I thrived.
It was the year I joined Carnival Committee
And was also the year I fell in love with poetry.
I admit that this year, I overbooked
But no one Hoops Group practice was overlooked.

Form 6 was the year I discovered Virginia Woolf.
It was also the first Inscape edition I edited myself.
I got stuck on a bike seventy feet in the air,
and have too many memories for this poem to share.
At the end of the year, my friends began to move away,
but I knew in my heart that I was here to stay

Finally in Form 7, I reached my peak,
going to prefect meetings every week.
This is the year I reflect on years past
and realize that it has all gone by too fast.
But the memories of the past six years are here to stay
and I know I will come back here to my home one day.

Kyla

Six years have gone by in a blink and here I am graduating from BCS. When I first started in form II, I came not knowing anyone but I quickly made friends. I know after six years here that I have changed, BCS has made me into who I am today. I started Form II, thinking I would finish Form VII with all my fellow classmates but that wasn't the case. Many of my first friends at BCS have either left or graduated Form VI. It is hard to believe that Julia and I are the only Lifers this year. I have taken advantage of the many opportunities that BCS has offered me. I have traveled with the Round Square International Conference to Singapore, Rugby tour, a few CAIS tournaments and sleeping in an igloo in La Tuque! Being part of the Round Square International Conference, was one of the best decisions I have ever made. I had never traveled that far in my life it was a big step out of my comfort zone but I am happy that I decided to do it. These trips have really made me believe how lucky I am that BCS gave me these opportunities. I am very honoured to have done those things. The traveling I have done with the school is one of my highlights and these memories will stay with me forever. I was not the same person when I came back from these trips. I learned a lot about myself and grew as a person. I enjoyed the sports teams I played on, being house captain, and head of house. I am also thrilled to have completed me Duke of Ed. gold in my last year

I couldn't imagine my high school career anywhere else. Not only has BCS taught me a lot of what I know today, but I have also met amazing friends and people here. For present students, BCS is not always easy. It is a school that expects a lot from everyone and it can be frustrating sometimes but just realize how lucky you are to attend a school like this. Six years ago, I would never have expected to become the person I am today. It's hard to imagine not coming back in September after the routine I have had here. Even writing this message I still can't believe it, six years later here I am! This experience is all thanks to two very important people, my parents. Thanks to everyone who made this past six years here so unforgettable, I will remember you all for the rest of my life.

Thanks BCS!

You arrived into our lives somewhat earlier than expected. It became quite clear from the outset that the reason was to begin your "Walk of Life" without any further delay.

Over the past 17 years, you've climbed the highest mountains and crossed the deepest seas.

Every challenge encountered you've successfully managed through your perseverance and tenacity.

To say we are proud is an understatement. You have surpassed all our expectations.

Your future is bright because you are the "Beacon of Light"

Our love for you is infinite and we are so very proud of our young lady.

Congratulations Emily Ann!

Take action. Every story you've ever connected with, every leader you've ever admired, every puny little thing that you've ever accomplished is the result of taking action. You have a choice. You can either be a passive victim of circumstance or you can be the active hero of your own life. - BRADLEY WITHFORD
